Website: www.chochev.eu /www.timag.eu

My name is Nikolay Chochev, I work from 2010 year in web development area. I am young and motivated Front-end Developer/Marketing expert and SEO specialist with 8+ years web development experience. In present time work like co-worker for few development company's and working like web designer/developer for some final clients.

I have a lot of experience over HTML5/CSS3/JavaScript, jQuery, WordPress, OpenCart and e.t. I can build sites for hours because I have perfect skills in front end technologies...:)

Also I am pretty good at fixing bugs or problems no matter if HTML/CSS or PHP. I love what I am doing, so I work hard to give the customers exactly what they need!

Sylvia Pavlova

MANAGING PARTNER | BD BUSINESS CONSULTANT

I know Nikolay from the Entrepreneurship module at the Faculty of Mathematics and Informatics - Plovdiv University.

The group comprises of more than 50 students, but Nikolay is one of the most actively participating ones. Obviously, it is natural to him to strive continuously to get the most out of any situation. Hence, he does get the most from the knowledge freely shared at the module. He is very proactive and demonstrates natural leadership.
